SPIH: The Life of a **Neolithic Farmer**.
Neolithic Farmers were the first people to farm in Ireland and they came here circa 3500 BC. Unlike the **Mesolithic** people before them, they were **farmers**, and not hunter-gatherers. Instead, they grew crops and kept animals.

Neolithic farmers were wiped out by Beaker people ...

www.dailymail.co.uk/sciencetech/article-5413607

But, according to a major new study, modern-day Britons are barely related to the ingenious Neolithic farmers who built the monument This vast migration helps explain the spread of Indo-European languages and it significantly replaced the local hunter-gatherer genes across Europe with steppe DNA, as happened in Britain with the migration of

Neolithic farmers coexisted with hunter-gatherers for ...

<https://www.sciencedaily.com/releases/2017/11/171109093100.htm>

"Neolithic farmers coexisted with hunter-gatherers for centuries in Europe: New research shows that early farmers who migrated to Europe from the Near East spread quickly across the continent, where they lived side-by-side with existing local hunter-gatherers while slowly mixing with those groups over time." ScienceDaily.

Origins and Genetic Legacy of Neolithic Farmers and

science.sciencemag.org/content/336/6080/466

Although all Neolithic individuals were excavated in Sweden, neither the Neolithic farmer nor the Neolithic hunter-gatherers appeared to cluster specifically within Swedish variation, a pattern that remained also for a larger sample of 1525 individuals from across Sweden (figs. S9, S21, and S22).

A NEOLITHIC FARMER - ATHY COLLEGE HISTORY

athycollegehistory.weebly.com/a-neolithic-farmer.html

Neolithic farmers depended less on hunting like hunter gathers. Instead they grew crops and kept animals. Unlike the first settlers they did not move from place to place. They grew crops such as wheat and barley and reared animals like cows, sheep and goats.
