< Overview Contents Judgement-based prediction Statistics >

A prediction, or forecast, is a statement about a future event. A prediction is often, but not always, based upon experience or knowledge. There is no universal agreement about the exact difference between the two terms; different authors and disciplines ascribe different connotations. Although future events are necessarily uncertain, so guaranteed accurate information about the future is in many cases impossible, prediction can be used

BBC - Future - The best way to predict the future
